

Copies:

In the copies master, we can add new copies of the books. Copies are the specific copies that each book has.

The screenshot shows a Windows application window titled "FormEjemplarMaestro_327LG". The main title bar says "Maestro Ejemplares". Below it, there is a section labeled "Libros:" containing a table with five rows of book data. The columns are: ISBN_327LG, titulo_327LG, autor_327LG, editorial_327LG, and edicion_327LG. The data is as follows:

	ISBN_327LG	titulo_327LG	autor_327LG	editorial_327LG	edicion_327LG
▶	97800001	El Quijote	Miguel de Cervantes Saavedra	Alfaguara	1
	97800002	Cien Años de Soledad	Gabriel García Márquez	HarperCollins	2
	97800003	1984	George Orwell	Penguin Random House	3
	97800004	El Principito	Antoine de Saint-Exupéry	Nova	2
	97800005	Harry Potter y la Piedra Filosofal	J.K. Rowling	Planeta	1

Below the table, there is a "Cantidad" label followed by a dropdown menu set to "1". At the bottom right, there is a button labeled "Agregar ejemplares".

In the form, we will have to select a book from the grid for which we want to enter copies, enter the quantity of copies to enter, and finally press the "Add copies" button.

In this way, we add the copies to the system.

note: If we add copies in the replacement section, when receiving deliveries, it is not necessary to re-enter the copies in this window.
